

Governor's Action Team on Energy and Climate Change

State of Florida

Florida Adaptation TWG
Catalog Framework Notes
April 4, 2008

The text in black reflects the initial framework from the FAU Bollman report that the TWG used as a starting point. Text in blue reflects modifications and/or additions suggested during the TWG's second teleconference meeting. Text in green reflects other additions put forward for the TWG's consideration; this mostly reflects vulnerable sectors with available policy actions (as opposed to planning-only as under ADP-2).
